Dear Patrick,

We would like to personally thank you for the effort you've put in this past six months to help us successfully roll out OS 2008. It took a lot of effort and dedication on your part to do all that extra work, travel, and hours, all while continuing in your full time day to day responsibilities.

Through your efforts, the OS upgrade allows us as a company the ability to continue to grow and improve our pharmacy business.

Again, thank you. The project was well worth your time and investment, and on behalf of the management team, we want you to know that we really do appreciate your efforts.

Sincerely,
